Subject: Sign up and join the Susan G. Komen Walk with fellow WIN members!

Women in NACG

A Capital Community

Join us for a Susan G. Komen Breast Cancer Walk in your local city!

Dear WIN Community,

Capital Group is a national sponsor of [Susan G. Komen's "More Than Pink" walk](#) this year, with local teams in six cities where we have Capital Group offices. We are partnering with Capital Women as part of the "Moments That Matters" programming around breast cancer awareness month in October. We are so excited to form local teams in the following six CG offices:

SEPT 8	NEW YORK CITY (NY) Central Park Team Captain: LZSB	SEPT 29	ORANGE COUNTY (CA) Fashion Island Team Captains: CLNM, GEEG, KIB
OCT 5	INDIANAPOLIS (IN) Historic Military Park at White River State Park Team Captains: AXLT, BCKM	OCT 5	LOS ANGELES (CA) Exposition Park Team Captains: ELSB, SRCJ
OCT 6	BAY AREA (CA) San Francisco Zoo & Gardens Team Captains: GKL, RBF	NOV 2	SAN ANTONIO (TX) New Methodist Hospital Location, Westover Hills Team Captain: JKDE

We invite you to join us, whether you are a breast cancer survivor, undergoing treatment now, a friend or family member of a breast cancer survivor, or just want to support our Capital Group team! The walks are typically leisurely, and we'd love to have as many CG

associates as possible (associates of all genders are welcome, as are friends and family). The money raised will help support advocating for patients, driving research breakthroughs, improving access to high-quality care, offering direct patient support and empowering people with trustworthy information. **And if you raise more than \$100, you get a cool t-shirt too!**

HOW YOU CAN PARTICIPATE

Join your local CG team and spread the word!

- Visit the [Capital Goup national team site](#)
- Select "Join A Team"
- Locate one of the six local CG teams and join the team!

DONATE!

If you can't join the walk and want to help support our CG team, [visit our team](#) page and donate to any of CG local teams

We hope to see you at one of the walks to support Capital Women and breast cancer survivors! Together we can help to achieve a world without breast cancer!

Maddi, Elizabeth, and Sarah

Maddi Dessner (MDID): Capital Group Team Executive Sponsor

Breast cancer has been a part of my family's life beginning decades ago with my grandmother and with me almost eight years ago. I am both a breast cancer survivor and a holder of the BRCA mutation which is the genetic marker for breast cancer. I believe the reason I am still here today is because of my awareness of my genetic risks, the importance of screening and the research that led to the knowledge that saved my life! I walk for all those who benefit from the amazing research championed by Susan G. Komen and other organizations like it!

Elizabeth Brownlow (ELSB): LAO Team Capital

I was diagnosed with breast cancer five years ago. I was fortunate to have an amazing care team who continues to ensure that my recovery will be enduring. As I have opened up about my own experience, I am finding women in every part of my life who are also breast cancer survivors or facing the fear of being newly diagnosed and undergoing treatment. I walk to support all women who are facing breast cancer and to reduce the chances that our daughters will face the same fear as they get older.

Sarah Johnson (SRCJ): LAO Team Capital

I was diagnosed with breast cancer three years ago. As part of my treatment, my doctors were able to take advantage of cutting-edge science to ensure that I made a full recovery. Not all women have access to this amazing healthcare, and I feel so fortunate to live in a city with these types of medical resources (and to work for a company that provides insurance coverage for this treatment!) I walk for myself, my family and friends who supported me during my recovery, and to raise money to continue to fuel the science that saves women's lives every day!
