

# Ending breast cancer needs all of us.

Susan G. Komen is committed to doing everything we can to save lives and end breast cancer forever. We are the only breast cancer organization taking a comprehensive, 360-degree approach to fight breast cancer across all fronts, supporting millions of people in the U.S. and worldwide.

## DRIVING RESEARCH

Guided by world renowned experts, we evaluate and invest in science and technology that will provide the greatest benefit to patients.

## PROVIDING CARE

We serve as a trusted breast health care guide by providing evidence-based education, personalized support and connection to timely, high-quality care.

## TAKING ACTION

We mobilize people to advocate for policies that protect patients, prioritize research and create lasting systemic changes to improve outcomes for all.

## UNIFYING COMMUNITIES

We unite communities that are bonded by a common interest and come together to deliver a greater impact in ending breast cancer.

## WHAT DRIVES US

### A Health Equity Revolution

**Achieving health equity is core to Komen's mission. Komen is committed to eliminating breast cancer disparities** by breaking down the barriers that create poor breast health outcomes through a variety of proven interventions. By collaborating with communities, policymakers, researchers, health care workers and other key stakeholders, we are creating a world where everyone has a just opportunity of surviving breast cancer.

### Conquering aggressive and deadly breast cancers

Susan G. Komen has long been committed to doing everything we can to eliminate breast cancer, and research is key to finding new discoveries and treatments for aggressive and deadly breast cancers. **That is why we are committed to advancing research for metastatic breast cancer, inflammatory breast cancer, triple negative breast cancer** and all rare, deadly and aggressive breast cancers.
